COMPANY OVERVIEW

Alphacap Trade Platform Private Limited is a premium construction material supply and trading company, strategically positioned to serve corporate customers, top builders, EPC Contractor, infrastructure companies, and large-scale developers across Tamil Nadu.

We operate as an end-to-end supply chain partner, connecting approved manufacturers with project execution teams to ensure uninterrupted material availability, consistent quality, and cost efficiency. Our structured sourcing model and logistics planning help customers execute projects smoothly and on schedule.

Get Started

ABOUT US

Established in 2022 as a proprietorship and incorporated as a Private Limited Company in 2024, Alphacap has rapidly evolved into a reliable, process-driven, and quality-focused supply chain partner for the construction industry.

We act as a single-window solution connecting reputed manufacturers with project owners, ensuring quality materials, commercial transparency, competitive pricing, and on-time delivery.

OUR PRODUCT PORTFOLIO

We supply approved, quality-assured construction materials suitable for residential, commercial, and infrastructure projects.

Ready Mix Concrete (RMC)

We supply grade-specific, quality-controlled Ready Mix Concrete suitable for residential, commercial, and infrastructure projects.

Applications: Foundations, slabs, columns, beams, pavements

Key Advantages:

Consistent quality & strength

Reduced site wastage

Faster construction cycles

Reliable batching & delivery scheduling

TMT Steel Bars

High-strength, corrosion-resistant TMT bars sourced from leading steel manufacturers.

Applications: RCC structural works

Key Advantages:

Superior tensile strength

Earthquake-resistant properties

Uniform weight & quality compliance

Cement (OPC / PPC / PSC)

Supply of branded cement suitable for structural, masonry, and finishing works.

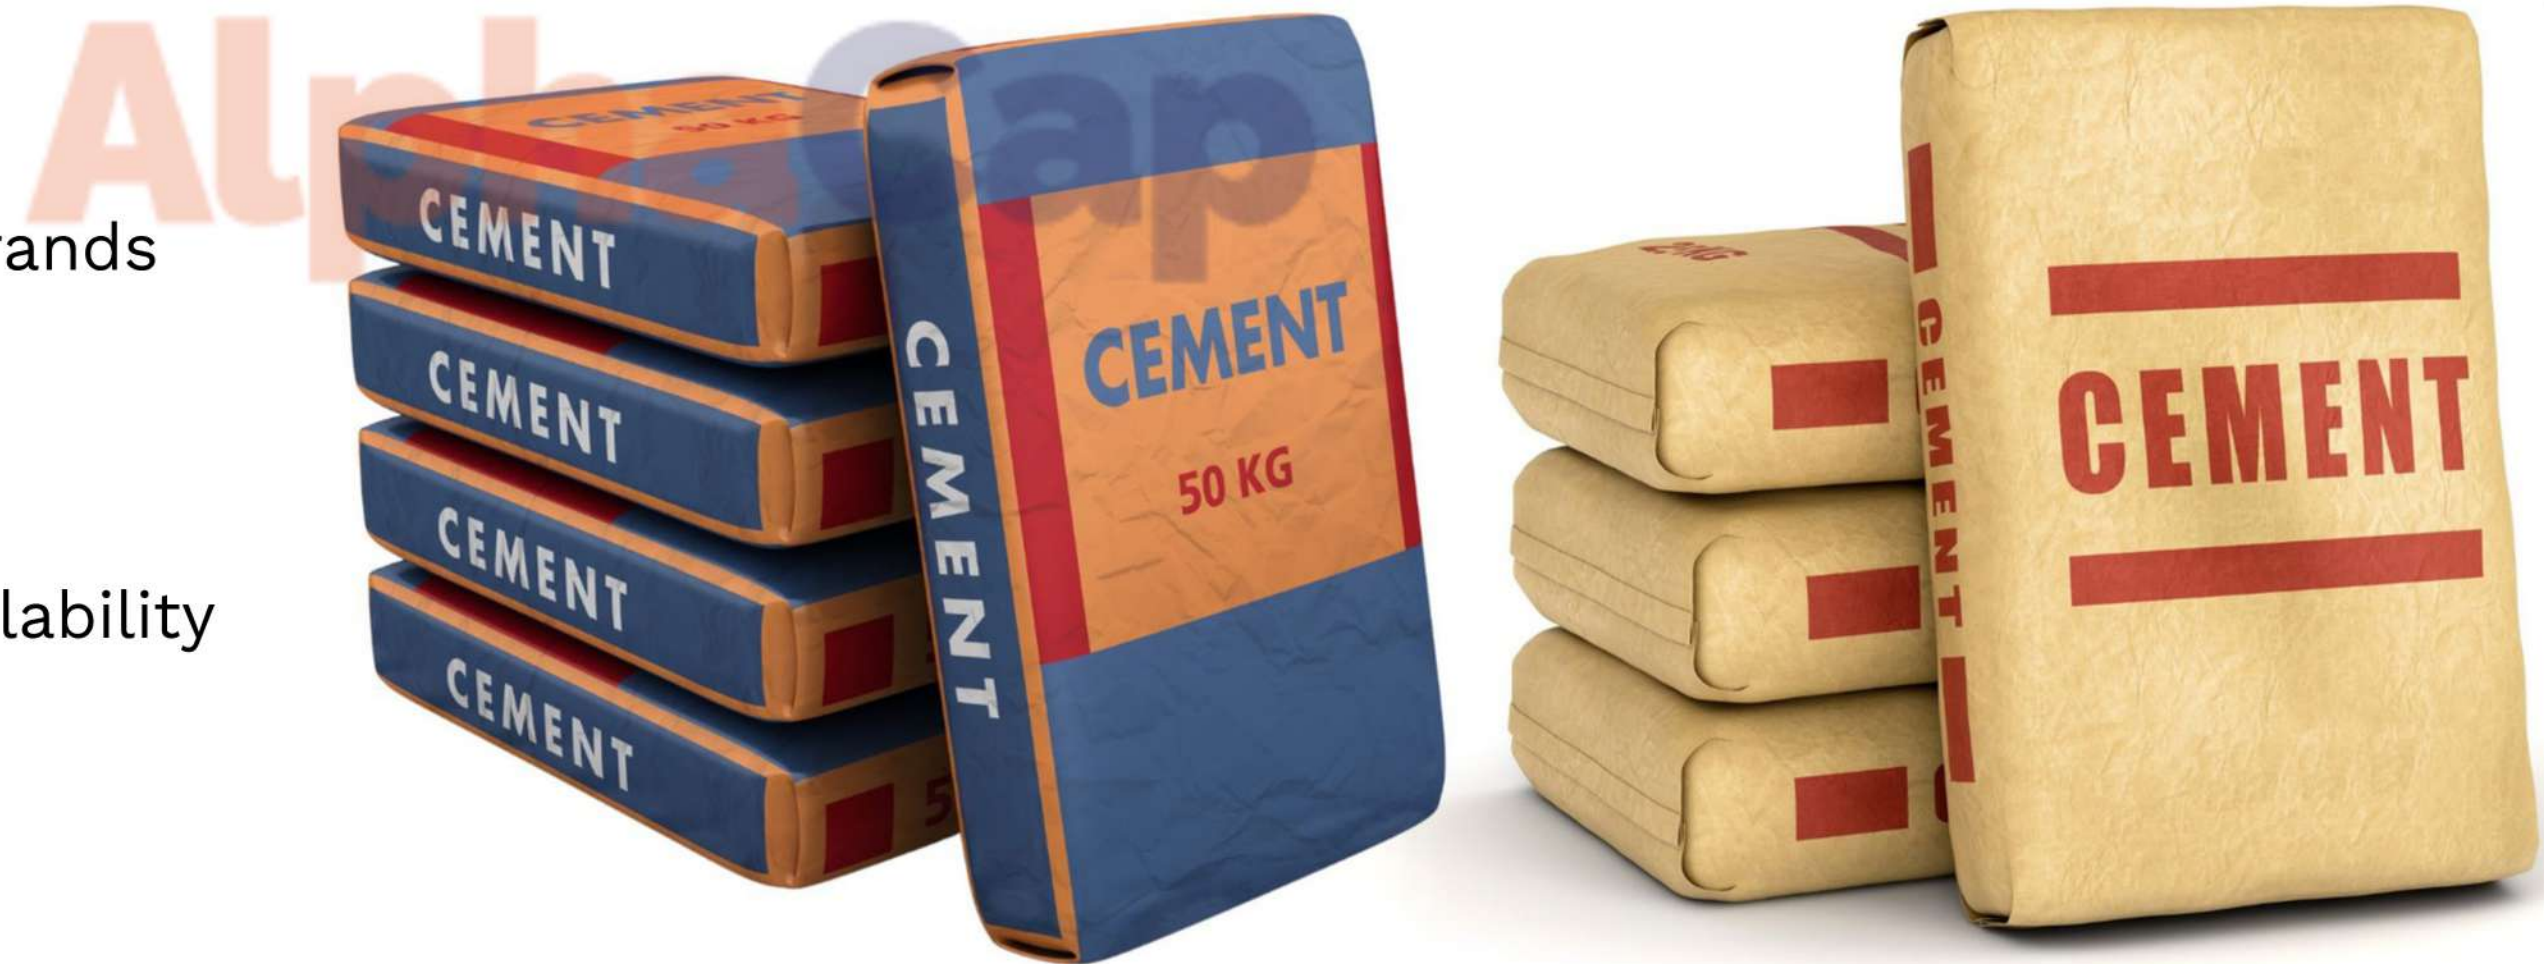

Applications: RCC works, plastering, masonry

Key Advantages:

Assured quality from trusted brands

Bulk and project-based supply

Stable pricing & consistent availability

Bulk Materials

We supply graded aggregates(6MM,12MM,20MM,30MM,40MM), Dust, Wet mix, GSB, M-sand and P-sand as per construction standards.

Applications: Concrete production, Plastering, Block works, Road work

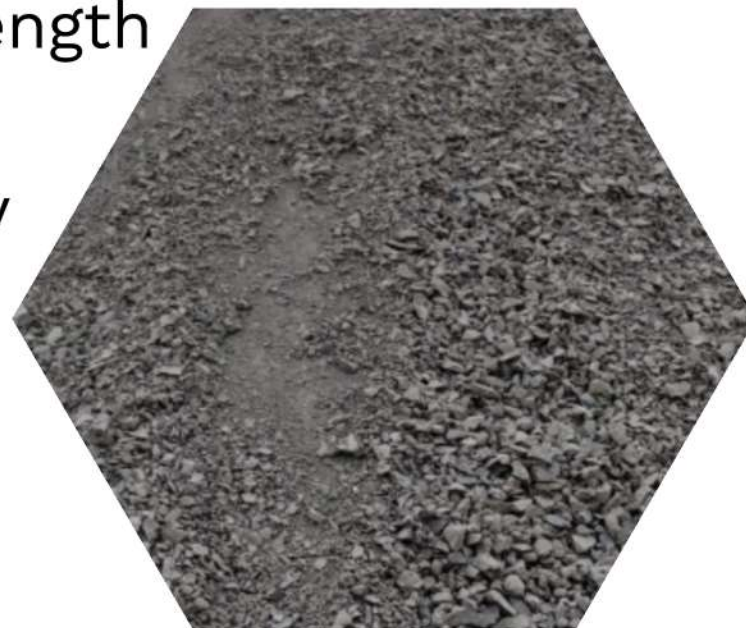

Key Advantages:

Controlled grading

Improved concrete strength

Continuous bulk supply

AlphaCap

AAC BLOCKS(Autoclaved Aerated Concrete Blocks)

We offer premium AAC blocks from reputed manufacturers, ideal for modern construction.

Applications: Residential buildings, high-rise structures, commercial spaces

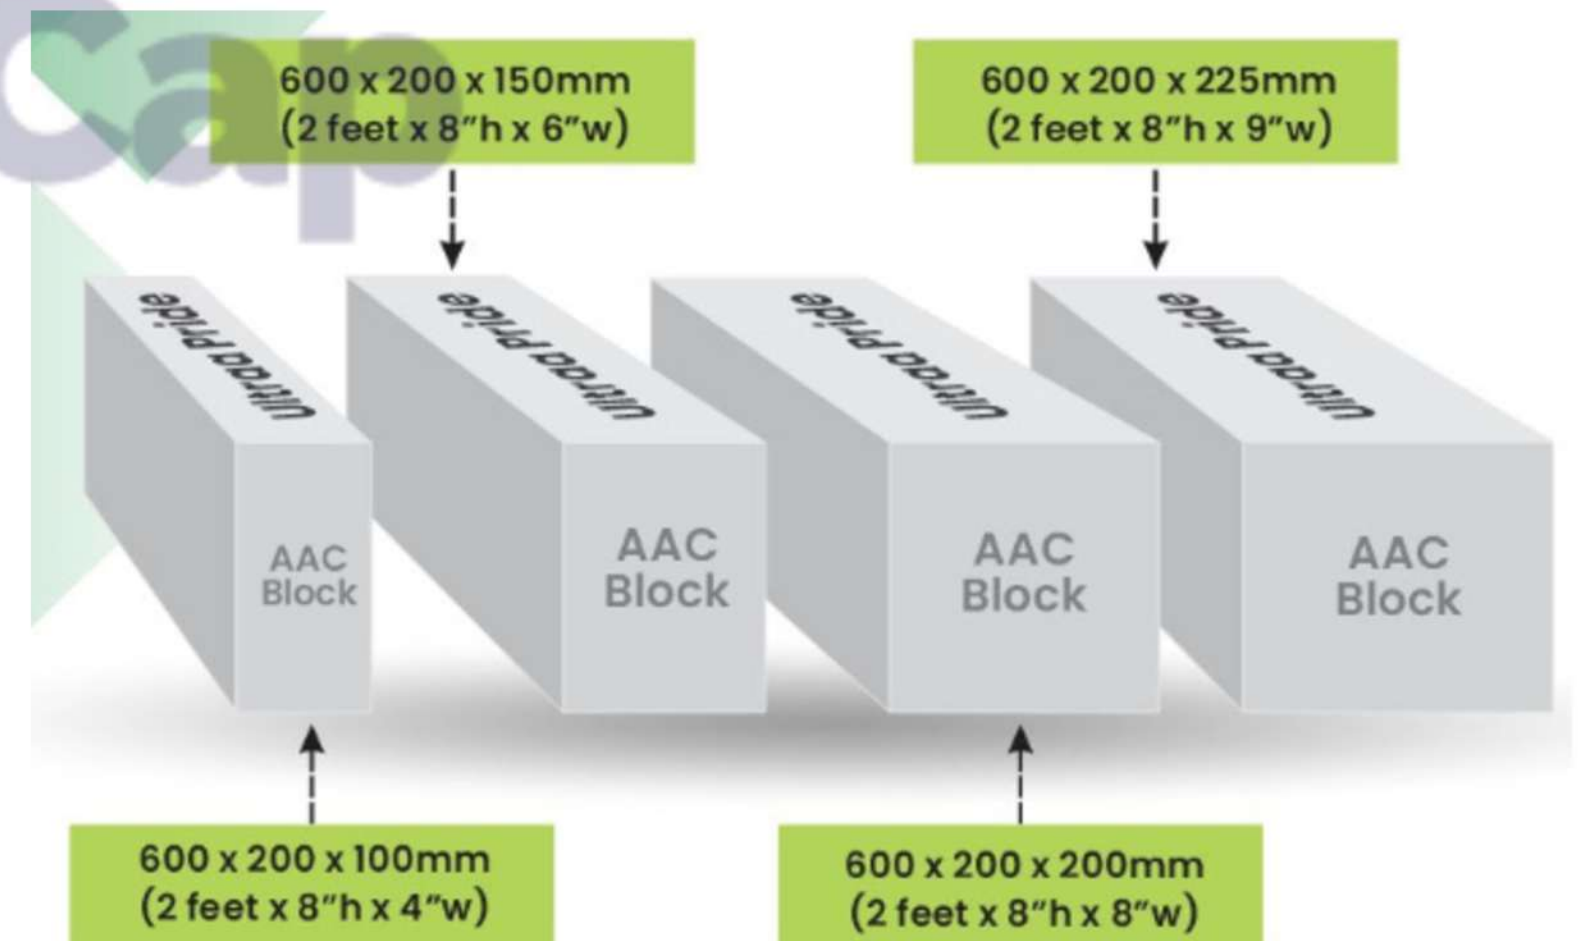

Key Advantages:

Lightweight & high compressive strength

Excellent thermal & sound insulation

Faster construction and reduced structural load

Cost savings on steel & plaster

Concrete Blocks

We supply solid and hollow concrete blocks manufactured as per standard specifications for structural and partition applications.

Applications: Load-bearing walls, compound walls, basements, partitions

Key Advantages:

High durability and strength

Uniform size for faster masonry work

Better fire resistance compared to conventional bricks

Suitable for large-scale and repetitive construction

AlphaCap

Bricks

Supply of quality red clay bricks / fly ash bricks sourced from reliable manufacturers.

Applications: Residential and commercial masonry works

Key Advantages:

Consistent quality and dimensional accuracy

Good bonding with mortar

Cost-effective solution for conventional construction

Continuous bulk supply capability

Paver Blocks

We supply high-quality concrete paver blocks suitable for both functional and aesthetic outdoor applications.

Applications: Driveways, walkways, parking areas, industrial yards, landscaping

Key Advantages:

High load-bearing capacity

Excellent abrasion and weather resistance

Easy installation and low maintenance

Available in multiple shapes, thicknesses & finishes

Our Service Capabilities

- End-to-end project material sourcing
- Bulk and contract-based supply
- Multi-site and phased delivery coordination
- Manufacturer and vendor management
- Rate finalization and procurement support
- Quality assurance and compliance assistance

Why Corporate Clients Choose Alphacap

- One-stop solution for multiple construction materials
- Strong network of approved manufacturers and suppliers
- Experience in supporting large-scale and time-bound projects
- Transparent, ethical, and professional operations
- Reliable logistics planning and on-time delivery
- Dedicated coordination for builders and EPC clients

AlphaCap

Our Clients

- Godrej Construction
- Tata Projects
- LNT Construction Limited
- Ultratech Concrete
- Prism Johnson Limited
- Hella Inframarket Limited
- RDC Concrete (India) Limited
- S & P Foundation Private Limited
- Casagrand Builder Private Limited

AlphaCap

Mission, Vision, Core values

Mission

To deliver quality construction materials with professionalism, transparency, and reliability—becoming a trusted long-term partner for builders and corporate clients across Tamil Nadu.

Vision

To emerge as a leading construction material supply platform by setting benchmarks in quality, service excellence, and supply chain efficiency.

Core values

Integrity: Transparent and ethical business practices

Customer Commitment: Long-term relationships over short-term gains

Operational Excellence: Timely delivery & process discipline

Innovation: Continuous improvement in sourcing & logistics
